Description of the evaluation by the Commission

Objectives, methodology and activities are feasible and clear and improves the image of Kosovo at EU, and therefore promotes the idea of free movement, thus visa liberalisation
The project does not offer other specific activities besides official meetings and seminars that are insufficient to achieve the objective
The project is outside the scope of the public call for applications for subsidies
Well designed project, includes one of the planned activities but does not give convincing information about the project's feasibility
The idea of the project is out of focus areas, it has to do with inter-community relations in Northern Mitrovica
The project is well prepared and clearly designed, is unique in comparison with other projects since it includes the category of repatriated citizens and obligations / duties that await them after repatriation
Objectives are listed, detailed activities and project scope reasonable.
The project is out of focus area
The project is out of focus area
The objectives are generalized, implementation deadlines are not defined, does not provide sufficient information on how project activities will be implemented, the survey does not elaborate what it contains.
Project activities speak for 2016 (Copy - Paste from the last year)
The project is outside the scope of the public call for application for subsidies
The project does not provide full information on project implementation.
The project is outside the scope of the public call for application for subsidies
The role and experience of NGOs provide no information for professionalism, role and organization experience in the areas specified in the public call for applications
For the realization of this project NGOs have sufficient budget funding from other OB
Absence of main activities and project goals, monitoring and assessment unconvincing (has benefited in 2016)
The project is out from objectives, unknown target groups and reaching through vague goals and objectives, unclear activities, and the outcomes are missing.
The project is out of scope. Project objectives and goals do not belong to the specific conditions for the implementation of activities envisaged for application
The project is well designed but does not offer compiled comprehensive information about the target group, and is not very convincing in the implementation of activities.
The project is not well designed and is not convincing, lacks timing, activities are weak
The project's objective is not convincing, generalized, manner of implementation is prolonged, the budget is not well specified and is not convincing for the project feasibility
The project is not designed in conformity to Annex 2 and 4 provided by regulation No 01/2016 on subsidizing projects
Well designed project, is unique and very creative, the message is reasonable. Activities are concrete and affect the free movement and isolation of Kosovars
Description of the project is the same as the Jeton Sadiku
Description of the project is the same as the one of Fahri Jashari
The project objectives are vague and very general, it differs from the target group of the project goal. Project viability is not convincing
Project description does not match the project purpose, target group in the title is not mentioned in the project description and in the stages of implementation.
The project is well prepared and designed with clear and innovative activities, but it is lacking the time of implementation of these activities (missing the deadline)
Objectives and goals are not detailed enough and insufficient key personnel for implementation of the activities specified in the project
The project is outside the scope of the public call for application for subsidies
The project objectives and goals do not fall in to the specific conditions for the implementation of activities envisaged for the application because of the target group
The project is not detailed and coherent, lacking implementation time although objectives and methodology are clear.
The project was submitted in English therefore is not submitted in one of the official languages (Albanian or Serbian)
The project is out of scope. Project objectives and goals do not fall in to the specific conditions for the implementation of activities envisaged for application
Objectives, methodology are clear, while activities do not have any timetable for implementation of the project.
The project is designed with clear objectives it is detailed, activities are feasible, coherent and reasoned budget.
Objectives, methodology and activities are feasible and clear. The project is detailed and concretized, innovative and creative (street art), it is reasonable.
The project is outside the scope of the public call for applications for subsidies
Activities through handbooks and posters are insufficient to achieve the results foreseen by the project scope
The project does not propose specific activities to achieve the realization of the purpose, does not provide sufficient information and is not convincing for the implementation of activities (deadlines are not defined)
The project is outside the scope of the public call for application for subsidies
The project is not consistent, the proposed methodology is not formulated correctly and does not provide convincing information for the project implementation
The project goal is within the scope according to the public call it is clear and affecting vulnerable groups of society and promotes European integration (May 9) through sports and cultural activities of the disabled persons. The project is measurable and can be monitored easily, all activities are clearly budgeted. Personnel for implementation is sufficient for the carrying out all activities.
Main objectives and goals of the project are lacking (has benefited in 2016)
Objectives, methodology and activities are achievable, and clear objectives and methodology. The project includes activities for MSA aspects and Europe Day. The project activities are measurable, clear and achievable.
The project is outside the scope of the public call for application for subsidies
The project is outside the scope of the public call for application for subsidies
The primary objective is not adequate, the target unreasonable, gap in activity, final analysis not clear
It is not convincing and objectives are unclear and do not relate to the public call of MEL convincing staff absent Not linked to specific areas of the European integration project only affects cultural heritage
Description of the objective and activity of the project is incomplete, not meeting sufficiently the criteria
Objectives are not described enough, activities are not clear and insufficient key staff for project implementation
The project does not coincide with the public call objectives and activities
The project objectives are not in compliance with the call for applications
It is not enough relevant, the target group is not that adequate and has no timetable for carrying out activities (beneficiaries during the 2016)
The project is not substantiable and lacking objectives narrative and project activities
Weaknesses in implementation of the objectives and the lack of experience for the project implementation are noted
The project promotes pillars required by the public call, it is clear and coherent, activities are feasible and reasonable viability
The project does not meet any of the activities provided by public call for application
Project viability is not convincing, even though it touches some of the pillars (beneficiaries during the 2016)
The project is incomplete, the objectives are described as non-listed should it does not described how the project will achieve the goal (the project is only the distribution of brochures)

The project is innovative and touches the goals of European integration methodology it is clear and feasible
The possibility of implementing it is impossible to implement with the information provided as extending in all Kosovo municipalities and has not enough staff for all these activities
Projects are identical and differ only by the title and are outside the scope
Projects are identical and differ only by the title and are outside the scope
Project viability is not convincing, even though it touches some of the pillars
The project is outside the scope of the public call for application for subsidies
No clear methodology, lack activities
Project title "Promotion of SAA to Youth" does not correspond with 2.4 project activities since it refers to another project "Ready for Europe" indicating that this project is not serious, and it lacks the detail project description (subsidy receiver in 2016 from MEI)
The project touches on first activities, but target groups are not identified
The project is outside the scope of the public call for application for subsidies
The project is outside the scope of the public call for application for subsidies
The project is outside the scope of the public call for application for subsidies
Not specified what program will be organized, the role and experience of the NGO is not in the field of European integration
The project is incoherent, lacking methodology, not specified in how many municipalities will hold lectures and in which months, the budget allocation is not consistent with the activities mentioned in the project.
The project activities are not detailed, project purpose is unclear because there are no teacher resources for European integration. The project activities are not detailed - is copy paste from the project description. Applicability of the project is not convincing due to inadequate staff
The project is not reliable to be implemented, it is not well-written and is not consistent and coherent as well as there are incomplete information on the implementation of the project
The project does not clearly show the place of realization of activities, there is no timeline and sufficient staff for carrying out activities
Project description is incomplete and it is not detailed, and applies the same project as in 2016
The project has secured a budget from other donors for fulfilling the objectives
The project objectives are general and do not provide sufficient information to project viability
The project objectives are general and do not provide sufficient information to project viability
The project is outside the scope - Handicraft
The project is outside the scope of the public call for application for subsidies
Lack of information about the detailed activities of the project, project is very broad and does not define clearly which business communities supports
The project is clearly designed it is a bit special, because of the application of the EU quiz that will be distributed free of charge in three municipalities (Shitine, Ferizaj and Lipjan)
Objectives, methodology and activities are feasible and clear and contributes to the improvement of Kosovo's image to the world. Project's required amount is 10000, the subsidized amount is 3000
The project is outside the scope of the public call for applications for subsidies
Project to promote European integration through art. Project viability is clear. Required amount is Euro 6275, the amount subsidized 5000
The project is outside the scope of public call for application for subsidies and with very high budget
The project is prepared well and relevant for the public call for application for subsidies
The project is outside the scope of the public call for application for subsidies
The project has been innovative through the metaphor vehicle XTERR (12 m3) space will promote Kosovo - EU Union
Project concept is outside the scope
The project is out of scope
Project concept is outside the scope (promotes green fair and artisans)
The project implementation is not convincing - inexperienced NGO
Key personnel insufficient for the project implementation, it is not determined who are the local leaders who will be involved.
Outside the scope of the public call.
Outside the scope of ISO-standards activities, unqualified key personnel for training on ISO
The project is out of scope
The project is well prepared and relevant to the public call for application for subsidies
The project is very broad, insufficient personnel, did not specify in which municipalities the project will be implemented. It does not clarify the exact training areas and relevant experts.
